## Major Error Found in our Area

You may have read the front page article in the January 19 issue of Linn's Stamp News about newly reported black ink omitted 2003 37 cent snowy egret stamps. Bonnie Vrooman of Castile, NY contacted me originally by email back on August 5, 2008 for advice via the RPA web site. In her own words, here is her story.

"December 12, 2004. We purchased a roll of one hundred 37-cent stamps from the post office in Perry, NY and paid for them with a personal check. We asked for Christmas stamps, but they did not have enough, so we got the Snowy Egrets instead. When we saw them we noticed the fact that "the post office doesn't put the price on the stamp anymore". However, we believed that they had done that before, so didn't think too much of it. We did not notice that the beak of the egret was missing!

"From December through early March 2005 we used 77 of the stamps, leaving us with a partial coil of 23 stamps.

"On March 3, 2005, we mailed a small package to our granddaughter in Portageville, NY and affixed 5 of the stamps to a manila envelope that had a fairly slick finish. Seeing several of the stamps in a row like that alerted a post office worker in Castile, NY to the fact they "looked funny", and that the beak was missing. They called us and said not to use any more stamps because they might be valuable. They also said they would call the Perry Post Office to see if anyone else had reported the errors.

"We received the 5 uncanceled stamps back from the Castile post office, and also have the envelope from my granddaughter, to which the post office had affixed a postage sticker for \$1.98 when they sent it on to Portageville.

"During the next few days we emailed several stamp dealers naively asking for a quote on how much they might be worth. The two dealers that were quite interested were Jack Nalbandian and Jacques Schiff. We decided to

just wait for awhile. We have kept all the answers from the dealers.

"We retrieved one Christmas card envelope that my daughter found, and one letter mailed in January, ironically with an undeliverable address. We had been keeping that envelope, trying to find the correct address. So we have two "covers".

"In August of 2008 we decided we should really try to get this all authenticated. Luckily, I decided to contact the Rochester Philatelic Association for their advice on how to begin. Tom Fortunato was extremely helpful with his advice, and we drove down to the American Philatelic Center in Bellefonte, PA on October 4 to deliver everything to Mercer Bristow for expertizing. We received the four certificates back in December 2008 for the following items:

- 1) coil of 23 mint stamps
- 2) 5 uncanceled stamps removed by the Castile post office
- 3) cancelled Christmas card
- 4) cancelled undeliverable cover"

With the certificates in hand I advised Bonnie to contact Jay Bigalke of Linn's to get the word out about the find. As Jay wrote, these error stamps were indeed an original find. The news gets better, as the undeliverable letter bears a used plate number single, "211," missing the black "V" and trailing digit "1".

This major error will get a listing in the 2009 Scott *Standard Postage Stamp Catalogue*. The value is yet to be determined, as the Vroomans have yet to sell one of their finds. I'll keep you posted, and get out there and check out your kiloware!

### Kodak Philatelica

There are many Kodak related items in the philatelic world. This ad tab from New Zealand is just one!

### Rochester Roessler Lincoln Cover

By chance do any of our "more seasoned" members remember seeing a cover like this before? The cachet celebrates the 70<sup>th</sup> anniversary of Abraham Lincoln's funeral train that passed through Rochester on Thursday, April 27, 1865. It sold on eBay for \$4.13 on November 26.

A little web research turned up this fascinating web site that has details about the train's route. (<http://www.lincoln-highway-museum.org/WHMC/WHMC-LFTR-01.html>).

It took 20 days to get Lincoln's body from Washington, DC to its final resting place in Springfield, IL, April 15-May 4, 1865 passing by 445 cities and towns along the way.

Locally it made brief early morning stops/pass-bys April 27 at the following train depots: Palmyra (2:15 AM), Meridian, Fairport (2:50 AM), Brighton, Rochester (3:20 AM), Coldwater, Chili, Churchville, Bergen, West Bergen, Batavia (5:18 AM).

A. C. Roessler, creator of this item, was a famous philatelic pioneer in early first day, airmail and commemorative covers.

ROPEX remains a group effort and we count on your support to make it possible. Monies raised at ROPEX helps to defray our yearly RPA operational deficit, paying for meeting rooms, newsletter production, mailings and other expenses. Volunteers are needed at setup and take down as well as throughout the show to man the club table.

Be sure to sign up for the ROPEX assignment at the time of your choice during upcoming RPA meetings or when you get a call from an RPA representative.

### Unique Worldwide Issues

If you ever see a cover with this "0" stamp on it, buy it at almost any price. Why?

Between January 12-13, 1998 residents of the Netherlands received a mailing announcing the privatization of their post office. It included a note saying, "This stamp is worth 80 cents on the day PTT Post will be introduced on the stock market. This jewel is valid as postage for letters and cards up to 20 grams for destinations in the Netherlands."

Exactly how many households kept the stamp, which was valid only one day, June 29, is unknown, but it surely wasn't many!

May 29- Bob Hope

unknown release dates

Another rate increase is planned for May, possibly to 44 cents. Denominations shown may change.

### U.S. Stamp Program: March-May

April 9- Richard Wright (will be 62 cents)

April/May- King and Queen of Hearts

Another Rochester seal on eBay- sold for \$18
